

Sailaway - Narrowboat

£30,000

We excited to bring you the incredibly rare opportunity to purchase a 50ft semi trad sailaway built by the highly sought after boat builder 'R.W Davis' who specialize in the construction of coastal and inland steel motor barges. Having been established since 1887, they've built up an enviable reputation over the decades for restoring, building, refitting and maintaining a diverse range of boats. This sailaway was originally built as a 36ft semi trad in 1997 by R.W Davis, and they have just extended the vessel to 50ft. The boat will come with fitted windows, painted, blacked and a fitted Beta 30hp engine.

This is an incredibly rare opportunity to purchase a boat that built such an esteemed boat builder with the opportunity to fit out yourself, or to work with the highly skilled team at R.W Davis to have the boat fitted out.
