

## Valkyrie - Clyde River Class Butty

£39,950

A rare opportunity to purchase a Clyde river class butty built by Yarwood and Sons in approximately 1935. She's the perfect project to finish off with the opportunity to own a piece of British history.

Entering from the stern there is an area that could be converted into a boatman's cabin, or used as a workshop / office area. Next is the engine room housing a Lister FR4 36hp engine with a hydraulic bow thruster. Moving through the boat, there is a walkthrough bathroom, then the open plan saloon and galley at the bow. Hot water is heated via a calorifier and there is a Firebird Poplar 70 boiler for the central heating.

With recent overplating carried out, there will also be a new BSC issued on sale.

An exciting project for someone to complete themselves, or have the renowned R.W Davis complete the refit.

- Clyde River Class Butty
- Lister FR4 36hp Engine
- New BSC issued on sale
- Approx 70ft by 6ft 10'
- Built by Yarwood & Sons
